

Wash Your Hands

When should you wash your hands?

- After using the restroom;
- After touching bare human body parts other than clean hands;
- After coughing, sneezing, using tobacco, or eating;
- When switching between working with raw food and working with ready-to-eat food;
- During food preparation, as often as necessary to remove soils/contamination and to prevent cross-contamination; and
- After engaging in other activities that may contaminate the hands such as taking out the trash or handling dirty dishes.
